

Thank you

For Choosing Rainbow Car TV

Welcome to Rainbow Car TV's Services. Before accessing or using any of our digital products, please take a moment to read through the following terms:

1. **Personal and Educational Use:** You are permitted to download, view, and print the content solely for your personal use or within a single educational environment.
2. **Ownership:** All digital products remain the exclusive property of Rainbow Car TV. Please do not remove any copyright, trademark, or proprietary notices.
3. **Sharing and Distribution:** Please avoid sharing or distributing any content without our explicit permission. We aim to ensure that our resources are used properly and not for commercial purposes.
4. **Adult Supervision:** Adult supervision is required for all our activities. By participating in any activity, you agree to oversee any child or participant, ensuring their safety at all times.

SHARK HUNTING FISH

Materials Required: Cardboard box, utility knife, clear tape, black whiteboard markers, scissors, and glue stick

Suggested age group for the activity: 3-6 years

Preparation: Print the shark sheet and attach it to a cardboard box. Cut out a mouth opening at the designated spot. Cover the numbers on the shark with clear tape, then use black whiteboard markers to write over them. Finally, cut out the small fish pieces.

How to Play: Use a cotton swab to uncover a number. Locate the corresponding fish (with dots or numbers) and feed it to the shark. Continue this process for all the numbers on the shark. Repeat with the other sharks using different number placements for added fun and learning.

This interactive counting game encourages children to engage in learning while developing fine motor skills and cognitive abilities. It's a fun way to explore numbers and colors!

Please visit our social channel: <https://www.youtube.com/@rainbowcarTV> for the demo.
